

KILLER SUDOKU

Just like conventional Sudoku the aim is to fill each row, each column and each 3x3 box with all the numbers from 1 to 9. Your clues are the numbers in the dotted-line shapes, which represent the sum of the numbers within that shape. The same number cannot be used twice within a dotted-line shape.

KAKURO

Fill in the grid so that each block adds up to the total in the box above or to the left of it. You can only use the digits 1-9 and you must not use the same digit twice in a block. The same digit may occur more than once in a row or column.

STAIRCASE

Place these words in the horizontal rows so that the letters in the diagonal staircase spell out another theatre-related word.
